Re: Section 43.62 Reporting Requirements for U.S. Providers of International Services, IB Docket No. 17-55

2016 Biennial Review of Telecommunications Regulations, IB Docket No. 16-131

Dear Ms. Dortch:

On March 16, 2017, James Talbot and I, of AT&T, met with Thomas Sullivan, Troy Tanner, Denise Coca, Kathleen Collins, Francis Gutierrez, David Krech, Arthur Lechtman and Walt Strack of the International Bureau to discuss the above-mentioned proceedings. Carol Bourdette, also of AT&T, participated via conference call.

During the meeting, we expressed AT&T's support for the Notice of Proposed Rulemaking that proposes to eliminate the annual Traffic and Revenue Reports and further streamline the Circuit Capacity Reports. We reiterated the challenges associated with the collection of these data, and that these burdensome rules are no longer relevant in today's highly competitive international market. We also discussed other approaches the Commission could consider for obtaining data from U.S. international carriers in the least burdensome manner. The arguments made were consistent with AT&T's prior filings in the above-referenced proceedings.

One electronic copy of this Notice is being submitted in the above-referenced proceedings in accordance with Section 1.1206 of the Commission's rules.

Sincerely,

A handwritten signature in black ink that reads "Amy L. Alvarez".
